

UGA MathCamp

July 9-13, 2018

Higher math for high school students

MathCamp is a day camp located at the University of Georgia (Athens campus) for motivated high school students interested in mathematics

At MathCamp you will:

- ❖ **Work in a group** with roughly 5 high school students led by a UGA faculty member, graduate student, and undergraduate student
- ❖ **Explore a new topic in math!** Topics vary year to year, but in the past they have included topology, graph theory, number theory, cryptography, mathematical problem solving, and mathematical biology
- ❖ **Hear lectures** from UGA faculty on exciting topics not normally covered in a high school math curriculum
- ❖ **Meet other students** who share your interest in math
- ❖ **Give a final presentation** on what you have learned throughout the week
- ❖ Get a **t-shirt** and plenty of **snacks!**

Registration is open now!
